

# **FINPOWER**

# EMPOWERING WOMEN IS SUSTAINABLE FINANCE TROUGH MICROLEARNING

# OCTOBER 2023, NEWSLETTER #2

## WHAT ARE THE PROJECT'S RESULTS

During the implementation of the project we will develop:

- FINPOWER Gaps Catalogue
- FINPOWER life skills matrix that will include a description of the skills and competencies needed to deal with defined real-life situations.
- Curriculum Document that will include information on the learning objectives.
- FINPOWER Sustainable Finance Academy that will be divided into two main parts. One part will target trainers and will include training materials and manual for trainers, while the other part will target women with developed microlearning units.
- A Policy Recommendation Document

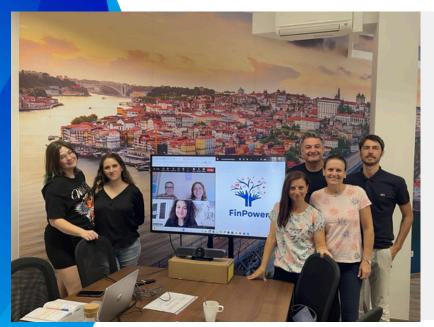

#### FINPOWER PROJECT

Welcome to our newsletter about FINPOWER - "Empowering women in sustainable finance through micro-learning", a project cofinanced by the Erasmus+ Programme of the European Union. The project, with the reference number 2022-1-AT01-KA220-ADU-000087985, aims to increase women's skills in sustainable financial literacy. Women often feel less confident than men about financial matters and have different financial literacy needs due to factors such as earning less, saving less, and living longer, while still being responsible for the same living expenses as men.

# WHAT HAVE WE BEEN DOING

project consortium met September 12 and 13 in Porto, Portugal, to go over project development and complete the FINPOWER Life Skills Matrix and Curriculum.

We talked about concepts for the project's upcoming phases, specifically the FINPOWER Sustainable Finance Academy.

In order to meet the needs of our target group, we will start working together on the next phase of the project, with many ideas and objectives defined.

## **LEGO WORKSHOP**

In a dynamic Lego workshop, our partners have outlined the key attributes that will define the FINPOWER Sustainable Finance Academy. These include creating a calming and stressreducing learning environment, embracing non-traditional and welcoming settings, ensuring simplicity for all, crafting engaging content, accommodating diverse learning speeds, and emphasizing accessibility across devices. Additionally, they've identified characteristics such as flexibility, transparency, inclusivity, and interactivity, which will be pivotal in the Academy's development

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.
